

My understanding is that you are considering a new broadcast service that would in essence bump our favorite station, K-Love, off the air. The fact that K-Love listeners fully fund their station annually should prove that it is a life line for many and a priceless source of uplifting music for more people than we can even imagine.

-K-Love saves lives each year through their phone service available to anyone in need. They are constantly getting calls from people preparing for suicide looking for hope. Many are able to find enough hope there to consider living again.

-Rachel, my 8 yr. old says "K-Love is a great station. They have good songs and I don't want them to be off the air".

-I prefer it because of the lack of advertisement and the music that constantly refocuses me to my creator who loves me beyond belief.

-K-Love also has daily prayer times for anyone who calls or writes in with concerns. They know the power of prayer in this world filled with pain, grief, confusion and other darkneses.

-I encourage you all to seek out and listen to the stations you would be bumping off the air including K-Love before you make this very detrimental decision. In my area, Portland, Or. K-love can be found on 107.1, 100.0, and 92.9 FM.

I'm praying for you all as you make this important and possibly detrimental decision.

Mrs. Barbara Mann, Dundee, Or.
